## INTRODUCTORY.

In presenting this our first volume of SIMMONS, CARY & Co.'s Directory of Quincy, Ill., Canton, Mo., Lewis and Marion Cos., Mo., we confess to feeling proud in having produced a work of such size, beauty and, we hope, accuracy. We return our warmest thanks to the numerous patrons of the Directory, and all who have assisted in any way, either by subscription, advertisements, or in information, which has materially aided us in issuing this work. Owing to our unsettled financial condition, and the prospects for a very high rate of taxation the past three years, our city has made very little progress, until about nine months ago when everything assumed a more flattering prospect, and to-day, we are on the eve of a GREAT BOOM. Upon our streets are seen hundreds of strangers who have gained employment in our principal manufactories, and every day brings back many of our old citizens who have been induced to return through the revival of business. Notwithstanding the high price of building material and labor, new buildings can be seen going up all over the city, and this fall will add four times as many more.

As a manufacturing city, Quincy has always been a success, and at the present time many of our factories are behind with their orders and almost all are forced to enlarge their capacity. Our merchants report trade very flattering.

We earnestly hope this work will meet the expectations and command the kind approval of all, should you find errors you do well, should you fail to find them you do better. A PERFECT DIRECTORY has yet to be made. The rapid increase in our population should be a just cause of pride to our citizens. We have spared no pains or expense in getting out this book to make it acceptable. In the present volume of the Quincy Directory we find there 10,719 names, being an increase of 1,497 over the 1880-'81 Directory, showing a population of 37,516, transients are not included in these figures. With many thanks to the business men generally and calling the attention of the CITY COUNCIL OF QUINCY to the necessity of having the names of the streets posted up at every corner of a street, and the houses and stores all numbered; and assuring all we shall still continue to represent the interests of Quincy, we bid you good-bye until our next work.

We remain respectfully,

SIMMONS & CRUTTENDEN,

QUINCY, ILL., June 1st, 1882.

# THOMAS TAYLOR,

=====AGENT FOR=====

## FRATERNITY CHARTS, A. O. U. W. DIPLOMAS,

AND LODGE BADGES.

=====ALSO, THE LATEST MUSICAL WONDER,=====

### THE MECHANICAL ORGUINETTE!

It will play Hymns, Tunes, Popular Airs, Sets of Quadrilles, Polkas, Waltzes, Reels and Hornpipes, with a clearness, accuracy and degree of execution which but few performers can equal.

### A MERE CHILD CAN PLAY IT!

The Music Box and all kindred instruments are not only expensive luxuries enjoyed by a few, but they are limited to a few sets of tunes, and so soon become tiresome, and as a means of enjoyment to their owners, entirely worthless.

THE ORGUINETTE, with its automatic music sheets, represents both Organ and Organist, Music and Musician, so that it is admirably adapted to Singing and Dancing Parties, and Winter Evenings' Entertainments, and is therefore not only the latest musical wonder, but (the price considered,) THE MOST MARVELOUS MECHANICAL MUSICAL INSTRUMENT OF THE AGE.

CALL AND SEE IT.

## Itching Piles—Symptoms and Cure.

The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, as if pin worms were crawling in and about the rectum; the private parts are somewhat affected; if allowed to continue very serious results may follow.

QUINCY, - ILLINOIS.

## HINTS TO PATRONS.

Children, in most cases, should be brought to the gallery in the mornings. When convenient,

**Call the day previous and make Arrangements for your Sitzings.**

In many cases the Photographer can give hints on points of dress and arranging the hair, appropriate and pleasing. Select time for your Sitzings when in the best mood.

### ===== **NEVER HURRY!** =====

Dress plain and neat. Avoid fancy and unnatural efforts in preparing your toilet, as much fussing and extra fixing will in most cases prove dissatisfactory in time.

Never dictate to the operator how he shall sit you after explaining to him just what you wish. In most all cases, the Photographer's judgment will result more favorable.

While sitting for a likeness be natural; avoid any assumed appearance, such as forcing a smile or straining the eyes. Some imagine it an improvement, but nothing is more deceptive.

It is not best for many to accompany the friend to the glass room, as it in many cases proves inconvenient to the operator and embarrassing to the sitter.

### **ALWAYS PAY A PART OF THE BILL YOU CONTRACT,**

As the Photographer is justly entitled to a part of the pay when the negative is made. This rule is **STRICTLY** necessary, for many reasons, in the photographic business.

Many are under the impression that bright sunshine is the best and only suitable light for good pictures. This is a mistake, as fair cloudy weather is the best.

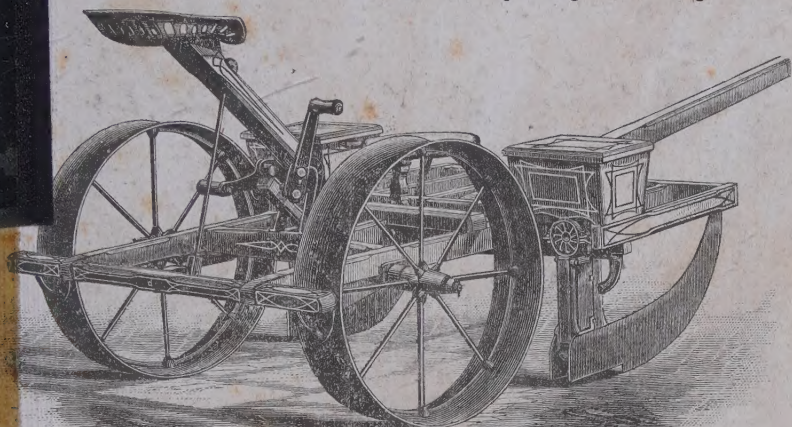

Respectfully,

BRADSHAW'S.

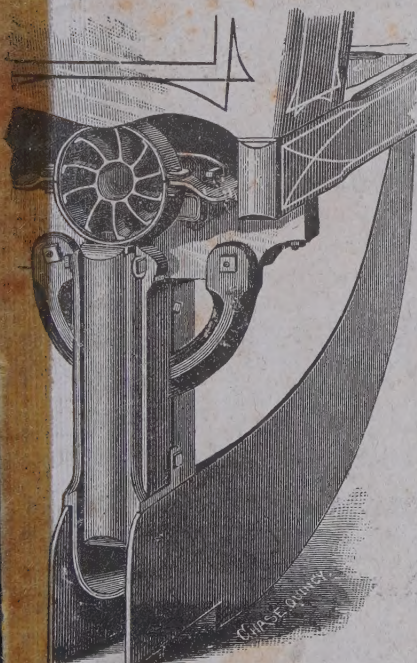

# THE BARLOW ROTARY CORN PLANTER!

Rows the Corn five hills in advance, before depositing it in the ground.

## THE BARLOW ROTARY,

The Barlow is the Best Planter in the World!

The Dropping device used on the Barlow is the most accurate and reliable rotary drop in use. Does not cut the corn, lock or bind. Does not miss. Drop plates have fifteen holes in each.

By use of the Revolving Seed Cup, the corn is held in plain view of the driver, at all times in the field, a valuable feature, and one that can be used only on the Barlow.

More Barlow Planters sold last and present seasons than any other style of planter in the market.

The Barlow is perfect in its adaptation to the Check Rowers. Easy throw of the bar.

Drill attachment used on the Barlow is simple and perfect. Drops one grain at a time, without a failure.

## Ask Dealers for the BARLOW!

Address for Circulars,

THE REVOLVING SEED CUP—Used only on the Barlow.

THE VANDIVER CORN PLANTER CO., Quincy, Illinois.

Manufacturers of the Barlow Rotary, Vandiver and Quincy Corn Planters.
